

My name is Johanna Burkhardt, and I am honored to be seeking re-election to the Board of Education.

I am a proud graduate of Susquehanna Valley, a place my husband and I chose to raise our four children due to its strong sense of community and commitment to education.

Over the past three years on the board, I have worked to be an active listener in the community, make fiscally responsible decisions, and collaborate effectively with my fellow board members. I've pursued continuing education through statewide conferences to ensure I bring informed, thoughtful perspectives to the board. I strongly believe that at the heart of every collaborative decision made is one guiding principle: what is best for all students. I take great pride in watching our students succeed in academics, the arts, clubs, and athletics.

Professionally, I have devoted the past 21 years of my career as a fourth-grade teacher in a neighboring district. This has given me a deep understanding of how children learn, the importance of building strong relationships with students and families, and how effective professional learning communities can support both educators and student achievement. I bring this knowledge to the board table when helping to make decisions in the best interest of our students, staff, and the long-term success of the district.

It would be my privilege to continue serving this community if re-elected. I would sincerely appreciate your support.

Johanna Burkhardt
