# Create or use your Apple ID without a payment method

Learn how you can create or use your Apple ID in the iTunes Store without a credit card or other payment method.

When you use your Apple ID to sign in to the iTunes Store, App Store, or iBooks Store for the first time, you're asked to enter a payment method so that you can purchase items from the store. Follow these steps if you don't want to associate a payment method with your account.

Apple recommends using only one Apple ID to access iTunes, iCloud, and other Apple services. If you don't remember if you have an Apple ID, we'll help you find it.

If you're the organizer for a Family Sharing group, you're required to have a payment method, either a credit card or debit card. A credit card is also required to set up accounts for children. Learn more about Apple IDs for kids.

## If you already have an Apple ID

You can choose to remove the payment method for your existing Apple ID after you have signed in to the iTunes Store, App Store, or iBooks Store. You won't be asked for a payment method again until you make a purchase.

### If you don't have an Apple ID
