INSTRUCTIONAL

POSITION **Long Term Sub - School Psychologist**

LOCATION Secondary Campuses

DESCRIPTION: We are seeking a dedicated and passionate School Psychologist to join our Susquehanna Valley Special Services secondary team. With a student body of approximately 1,400 students district wide and approximately 700 students at the middle school and high school level, our School Psychologist plays a critical role in supporting our students, staff and promoting a nurturing school climate with the following duties and responsibilities:

- Lead psychological testing and interpretation to determine students' strengths, challenges, and learning needs.
- Possess strong organizational skills by maintaining accurate scheduling and records, being prepared and meeting deadlines.
- Collaborate with general education and special education staff to implement strategies and interventions to support students' academic and behavioral success.
- Demonstrate strong understanding of federal and state special education regulations and criteria to help guide decision-making with students' best interest in mind.
- Work productively with educators, parents, and other stakeholders to create Individualized Education Plans (IEPs), 504 Plans, functional behavioral assessments, behavior intervention plans, and various interventions/supports tailored to students' unique needs.
- Maintain positive and trusting relationships with key stakeholders (students, parents, staff and the broader community)
- Act as a member of the special education team by participating in IEP and 504 meetings, manifestation determination review meetings, team meetings, and others, as required within assigned buildings.
- Provide counseling and crisis intervention services to students, addressing emotional, social and behavioral concerns.
- Participate in multidisciplinary teams to develop strategies for school-wide initiatives that promote mental health and well-being.
